

800/1800 MHz Mobile Antenna

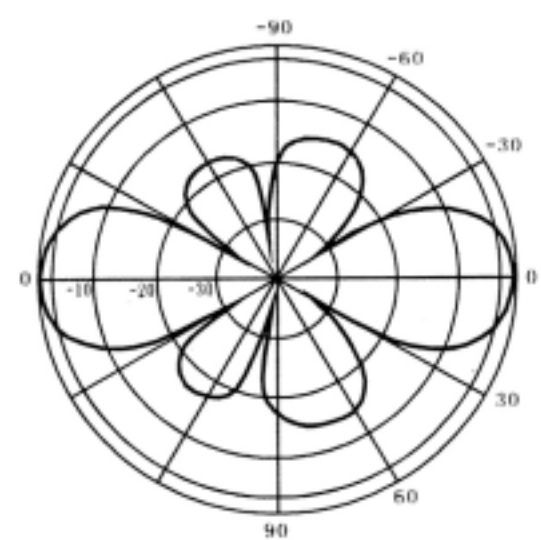

Model Number: ATC-08-18H

Description: ATC-08-18H mobile antenna has good VSWR. It can be mounted as horizontal or vertical polarization. There is double mucilage glue on the antenna which can make it easily mounted on the object. All the antennas are tested by HP network analyzer before delivery strictly.

Model	ATC-08018H	
Frequency Range	824-960 MHz	1710-1880 MHz
Input Impedance	50 ohm	
VSWR	< 1.5	< 2
Gain	2 dBi	
3 dBi HPBW	28° E-plane	
Maximum Power	20 W	
Polarization	Vertical and Horizontal	
Dimensions LxWxT	115x22x6mm	
Cover	Polyolefin	
Input Connection	SYV-50-2 or RG-174/U Coaxial Cable	
Cable Length	3 meters or Customization	
Connector	SMA male or Customization	

Horizontal Plane

Vertical Plane
